

JASON POGGIOLI

Technology Executive • AI & Software Engineering Leader • Entrepreneur

(845) 402-8027 • jason.poggioli@outlook.com • [linkedin.com/in/jasonpoggioli](https://www.linkedin.com/in/jasonpoggioli) • New York City Metropolitan Area

PROFESSIONAL SUMMARY

Accomplished technology executive and entrepreneur with 18+ years of progressive leadership across software engineering, product strategy, and AI innovation. Proven track record co-founding and scaling B2B SaaS platforms from concept through acquisition, directing \$25M+ global programs, and generating \$50M+ in cumulative enterprise client savings. Currently leading a vendor-agnostic AI consulting practice that guides C-suite executives through high-impact digital transformation. Combines deep technical expertise in .NET, cloud architecture, and machine learning with exceptional cross-functional leadership and a passion for building high-performing teams.

PROFESSIONAL EXPERIENCE

Ten Dimensional Software

Tuxedo Park, NY

Founder & Principal AI Consultant

Aug 2025 – Present

- Founded a vendor-agnostic AI consulting practice, guiding C-suite and enterprise leaders through AI strategy development and digital transformation by identifying high-impact automation opportunities tailored to each organization's unique processes and goals.
- Lead executive discovery engagements to assess organizational AI readiness, prioritize initiatives by ROI, and deliver pragmatic roadmaps with clear risk mitigation strategies.
- Oversee end-to-end implementation including AI model selection, system configuration, employee training, and change management—partnering with internal IT teams for sustainable, measurable AI adoption.

Blind Brook High School

Rye Brook, NY

Leave Replacement Teacher – AP Computer Science Principles

Dec 2025

- Delivered rigorous, AP-aligned instruction covering computational thinking, algorithms, data analysis, and internet architecture to a diverse student population.
- Designed hands-on programming activities using MIT App Inventor and block-based tools, maintaining classroom continuity and academic momentum during faculty leave.

Hart InterCivic

Austin, TX

Senior Director, Software Engineering

Dec 2021 – Jan 2025

- Spearheaded Hart's acquisition of the NextVote product and engineering team, integrating systems, culture, and processes to enable scalable growth and platform modernization across new government markets.
- Directed product development and market strategy for NextVote, expanding reach to eight NY counties (~750K voters) and growing adoption among ~30 government agencies through multi-year contract wins.
- Drove a 23% increase in engineering velocity through talent mentorship, technical debt reduction, and a high-performance culture that cultivated multiple internal promotions into senior leadership roles.
- Partnered directly with state and county officials to define architecture and implement a robust .NET solution, accelerating time-to-market and elevating brand trust with government stakeholders.

NextVote

Tuxedo Park, NY

Co-Founder & VP Software Design and Development

Jan 2019 – Dec 2021

- Co-founded and led product strategy for a B2B SaaS election management platform from concept to production, driving strong municipal adoption and successfully positioning the company for acquisition by Hart InterCivic.
- Architected and launched the full NextVote platform; secured NY State Board of Elections approval, unlocking statewide sales opportunities and strengthening government B2B relationships.
- Built and scaled a high-performing engineering organization from the ground up, recruiting developers, UI designers, and QA engineers; established Agile, CI/CD, and DevOps practices that measurably improved code quality and deployment reliability.

Ten Dimensional Software, LLC

Founder & Principal Engineer

Tuxedo Park, NY
Jun 2015 – Jan 2020

- Designed and delivered custom ERP and eCommerce solutions for SMB clients, generating measurable improvements in revenue, operational efficiency, and long-term client retention.
- Architected scalable .NET web applications using C#, ASP.NET, and SQL Server; built strategic B2B partnerships that expanded service offerings into niche verticals and new geographic markets.

Nuance Communications

Senior Manager, Mobility Professional Services

Mahwah, NJ
May 2015 – Apr 2017

- Managed APAC and European SaaS operations representing ~\$2M in annual recurring revenue; increased voice recognition transaction success rates by ~40% for a major consumer electronics manufacturer.
- Achieved 99.999% data center uptime through a comprehensive service improvement program, significantly reducing churn and reinforcing client confidence.

Senior Program Manager

Jul 2013 – Apr 2015

- Directed a \$25M global program across five business units and ~120 employees, providing bi-weekly strategic updates to the CEO and managing all risks, issues, and change requests.
- Led cross-functional teams to design, build, and deploy Nuance Dragon Assistant in partnership with Intel, achieving a successful global launch pre-installed on ~10 Ultrabook OEM models across four continents.

Senior Technical Manager

Jan 2007 – Jul 2013

- Managed a portfolio of up to 13 enterprise call center integration projects (~\$5M annual revenue, ~\$4M backlog), consistently delivering on time and exceeding client KPIs.
- Served enterprise clients across banking, manufacturing, utilities, and insurance—delivering solutions that generated ~\$50M in cumulative annual client savings; led 13 team members and mentored 9 project managers across ~60 staff.

EDUCATION

Georgia Institute of Technology
Master of Science, Computer Science

Atlanta, GA

State University of New York
Bachelor of Science, Computer Science

New York

CERTIFICATIONS

New York State Education Department (NYSED) – Transitional A Certificate, Computer Science (Pending Approval)
